SUMMARY

Entry-level IT Engineer and final-year B.Tech Information Technology student with a strong foundation in software development, data structures, and database management. Hands-on experience in application design, development, testing, and deployment through academic projects and internships. Demonstrates strong analytical skills, attention to quality, and effective collaboration in team-based environments.

EDUCATION

Amal Jyothi College of Engineering (Autonomous), APJAKTU — **Kottayam, Kerala**
Bachelor of Technology in Information Technology | CGPA: 7.3 — 2022 – Present

C Kesavan Memorial HSS, Kerala State Board — **Kottayam, Kerala**
Higher Secondary Education | Percentage: 93.5% — 2020 - 2022

St. George Public School, CBSE — **Kottayam, Kerala**
High School Education | Percentage: 93.6% — 2008 - 2020

EXPERIENCE

TOTAMANIC MARKETING SOLUTIONS — **Kottayam, Kerala**
Web Developer Intern — February 2025 – October 2025

- Enhanced user experience by deploying responsive websites (totamanic.com & mannacounsellingcentre.com) using HTML, CSS, and JavaScript
- Optimized for performance, SEO, and mobile responsiveness to ensure seamless cross-device compatibility

UNIQUE WORLD ROBOTICS — **Kottayam, Kerala**
AI & ML Intern — June 17, 2025 – June 21, 2025

- Designed and implemented a Traffic Prediction System using machine learning on real-world datasets
- Performed data preprocessing and trained ML models using scikit-learn
- Developed a user-facing web interface for predictions and deployed the system via Flask

LEOPARD TECH LABS — **Kottayam, Kerala**
Flutter Developer Intern — June 2024 – July 2024

- Built and refined front-end screens using Flutter and Dart for a cross-platform mobile app
- Integrated Firebase Authentication and Firestore, ensuring real-time data sync and performance across devices

PROJECTS

Student Management System
Tools: Java, Swing, MySQL

- Developed a Java Swing desktop application to manage student records and reports
- Implemented MySQL-based CRUD operations and validated workflows through manual testing

Appointment Booking System
Tools: HTML, CSS, JavaScript, MongoDB

- Built a full-stack web application with authentication, scheduling, and admin approval workflows
- Designed and tested database operations using MongoDB to ensure data integrity

Fact-Based Comparison of News Articles
Tools: Python, Web Scraping, NLP, SBERT, NLI-BERT

- Developed a system to extract and compare factual information from multiple news articles on the same topic
- Applied text preprocessing and semantic analysis techniques to identify common, unique, contradicting, and omitted facts

SKILLS

HTML, CSS, JavaScript, MongoDB, Node.js, Python, Java, C, Java Swing, MySQL, pandas, NumPy, Flask
